DEMO Enterprise Platform — pick your workflow

Five ways to present the same system. Each has its own flowchart on the next pages. Choose by who's in the room and how much time you have.

Every option: pick a name in the sign-in list → **OK** (no password). Change person with **Switch role** (top right). The list is already sorted in presentation order.

On the first page choose **Group of companies** — or **One company** (Alderbrook Holdings with the same eight departments, people and approvals; the same steps work, without company switching).

- **Requests**: $28,500 grapple (purchase order) · $640 boots · travel
- **Profile** 5 tabs · **Choose a look** · Feedback

→

2 LF Liam

Manager: approve the team

- **Approvals**: timesheet, time off, $640, travel ✓ (under $5,000)
- $28,500 → goes on to director level (over $5,000)
- **My Team**: new task · finish Maya's review
- **Contracts**: upload one for the team

→

3 PR Priya

HR: people, benefits, pension

- Add employee → onboarding · job opening
- Certificates reminder · Time & Attendance
- **Reviews, Benefits & Pension**: cycle · enrol
- End employment → draft ROE

→

4 DO Daniel

Finance: pay, match, close

- Approve finance bill INV-10245 only
- Pay back Maya's $640 (Finance queue) · payment batch
- Matching · AR · bank auto-match
- Accounting · Pension read-only · Reports

5 RD Rachel

Payroll: a run ready to go

- **PR-2026-0019** → Calculate (6, no warnings)
- Send for approval → waits on the Executive Director (Olivia)
- Issue the ROE · record the PD7A
- Statements · Year-end · By pay period

→

6 OB Olivia

CEO: approve and oversee

- Approve payroll · $28,500 (director level) · job opening
- Contracts across every team
- Income statement · Balance sheet
- Headcount · History of the day

FOLLOW THE THREADS — WHAT PASSES FROM PERSON TO PERSON

B Follow the Money

Three stories from request to done

15 min **7** sign-ins MC LF DO RD OB EC SA

① Purchase — $28,500 grapple

Shows: thresholds, two-step approval, PO, receiving

- **Maya** (MC) asks: Requests › New Purchase Order
- → **Liam** (LF) approves step 1
- → **Olivia** (OB) over $5,000 → director level approves; the PO is made
- → **Ethan** (EC) receives the goods
- → **Daniel** (DO) records the invoice, closes the PO
- → **Maya** (MC) sees it done

② Expense — $640 safety boots

Shows: one-step approval, reimbursement

- **Maya** (MC) claims with receipt: Requests › New Expense Claim
- → **Liam** (LF) approves — under $5,000, done
- → **Daniel** (DO) pays it back (Finance queue → Record as paid)
- → **Maya** (MC) sees “Processed”

③ Pay run — Alderbrook Holdings salaried

Shows: banked OT rules, payroll controls, posting

- **Maya** (MC) sends timesheet (2 h banked)
- → **Liam** (LF) approves it
- → **Rachel** (RD) calculates PR-2026-0019, sends
- → **Olivia** (OB) approves payroll (Executive Director step)
- → **Rachel** (RD) posts: journal + statements

④ Prove it

Shows: rules are editable, nothing is hidden

- **Admin** (SA) changes a threshold in Administration › Approval rules
- → **Admin** (SA) Audit log: every step, who and when

Tip: keep two browser tabs open — present in one, use the other to switch person quickly.

Thresholds: under $5,000 the manager's approval is enough; from $5,000 it also goes to director level (Executive Director or CEO) — purchase orders only when over $5,000.

Finish strong: the Audit log shows every click above, with who and when.

C Department Tour

One module at a time, in plain order

20 min **8** sign-ins PR MC LF RD DO EC OB SA

1 PR Priya — People & HR

- Employees · Maya's record
- Add employee → onboarding
- Hiring · Departments · Org chart

Say: *"Every person's record, from first day to last."*

→

2 MC LF Maya + Liam — Time & time off

- Timesheet: banked OT ≤ balance, ≤ 8 h/day
- Time off with balances · Calendar
- Liam approves both

Say: *"Hours and time off fill in by themselves — the rules are built in."*

→

3 PR DO Priya + Daniel — Reviews, Benefits & Pension

- Priya: review cycle · enrol · pension
- Daniel: same pages, view + download
- Employee sees own pension

Say: *"HR keeps it current; Finance can see it but not change it."*

→

4 RD Rachel — Payroll

- Ready run → Calculate → Send
- ROE · PD7A remittance
- Statements · Year-end

Say: *"From approved hours to pay statements, with a check at every step."*

5 DO Daniel — Finance

- AP bills · payment batch · claims
- AR invoice · bank auto-match
- Month-end · budgets · assets

Say: *"Bills, payments, the bank and month-end in one place."*

→

6 MC DO EC 3 people — Purchasing & stock

- Maya's purchase order → approvals → PO
- Ethan receives · 3-way match
- Stock · items · sales orders

Say: *"From a request to goods received, matched to the bill."*

→

7 OB SA Olivia + Admin — Reports & control

- Olivia: P&L · balance sheet · history
- Admin: approval rules · audit log
- Page & Experience · Settings

Say: *"Every number, and a record of who did what."*

Tip: let each department head take the mouse for their own stop.

Order: people first, money last — it follows how work flows through the group.

Skip freely: each stop stands on its own.
