Close the loop is on Grace's page: Rachel posts the payroll, Grace's approval makes Maya's purchase order PO-2026-0012 ready to print, Ethan Clarke (General Manager, Ridgeline Timber) receives the goods, and Maya sees it all approved — so the Purchasing count there covers more than one person.

Before you start: open the demo fresh (a new private window), so every request, approval and pay run starts from the same place. Each page below lists the exact pages that person opens.
